INTERESTS

Cooking Food

Love to cook mutton. Can't say a good cook but likes cooking

Playing Cricket

Captained my school team in the inter-school cricket championship. Won the title twice.

Playing Music

In the early stage of life, Wanted to be a D.J. I had a keen interest in playing music in weddings, small events and shows.

WORK EXPERIENCE

CallHub (Campaigning platform) Bangalore, IN Software Engineer (SDE-1), Sept 2021- present

Worked on various projects to make CallHub, a most lovable campaigning and communication platform, Introduced many latest technologies to make Callhub's UI more interactive and user-friendly interface.

- Worked on Callhub's mobile app from scratch for their most usable product P2P texting campaign, previously never worked on React-native and directly got the opportunity to build the product and it was a success.
- Implemented Patch-through calling in the mobile app, which helps agents to make a conference call to their manager.
- Worked on 10DLC and SHAKEN/STIR compliance, which requires businesses that send SMS and MMS over local phone numbers to register their brands and campaigns with The Campaign Registry, Built the UI on React, Ant design UI library and for the global state management used Recoil js and Redux.
- Worked on Customer KYC - single-handed project and first backend project also. It helped to onboard new customers with KYC. Synced the customer's KYC data in slack so the Product team can easily track them
- Integrated Twilio Segment Events across the website to track the user's journey, like what he did, where got stuck, etc.
- Worked on Voice-broadcast UI enhancement to give users a delightful experience to use the product, worked on JQuery, Django templates, and Bootstrap.

PROJECTS

Abhibus.com Clone

AbhiBus is India's fastest growing online ticket booking platform offering bus ticket booking, train ticket booking, hotel booking and bus rental services.

- Techstack:- React-JS, Redux, NodeJS, MongoDB, Express
